FOOT DOWN, CURTAIN UP.

Driving a MINI is pure entertainment in itself. And with this DVD package, it's pretty good in the back too. While you're at the wheel enjoying the drive, they're wide-eyed in the back being thrilled by movies or rocking out to music. Call it a win-win situation.

Perfectly suited for MINI, the player looks and fits great. And importantly it's safe too because, like the MINI itself, it's been thoroughly crash-tested.

As for entertainment value, it plays back pretty much every format you can think of in full, crisp colour while high-quality audio comes through either integrated speakers or optional wireless headphones, or you can simply plug in your own.

Power comes from a retractable cable that plugs into the 12v socket in your MINI. And for security, just unclip the screens and off you go.

UNIVERSAL DVD SYSTEM.

Key features / benefits

- Two 7" digital TFT screens, resolution 480x234 (one screen with integrated DVD player)
- Easy-to-install headrest mounting system with 'Click & Play' technology
